

Fresh Mesh Combo®

Introduced to the industry in 1998, the **Fox Fresh Mesh® Combo** bag combines the best qualities of poly and mesh into a durable bag design bonded together with a wide heat sealed seam that is tested to exceed several times the specified bag weight.

Less expensive than full mesh options, the Fox Fresh Mesh® Combo bag acts like poly on automatic packing machinery making it a favored bag solution by fresh produce packers across the supply chain. Retail customers love the combination of beautiful graphics and excellent breathability that make for a win-win produce display.

Works Great For

Citrus
